Ban On Comic Books Causes Legal Row

The battle of the comic books raged on the peninsula this week, with Felix Riesenbergs of the Northern California Chapter of the Authors Guild claiming that city ordinances banning alleged objectionable comic books fell under the heading of censorship and a violation of the freedom of the press.

It all started when the United Catholic Societies of San Mateo County requested all county governmental agencies to take steps against objectionable comic books which stressed sex and crime and were decorated with vivid pictorial matter.

San Carlos turned censorship duties over to the police department. San Mateo asked for a "voluntary" ban by distributors of the books, and the county ordered Prosecution Officer John S. Cowgill to prepare a list of all objectionable comic books.

P.T.A. groups have gone on record against the books, but thought they should be controlled by a code of ethics among publishers.

Where local censorship has been instituted, there have been legal suits against the cities of Los Angeles, Sacramento and New York.

STREET SIGNS GO UP SLOWLY

Appearance of a few of the city's new black and white street signs scattered main intersections this week gave notice that the street sign program is finally under way. However, further installations will be held up for approximately two weeks, until a shipment of galvanized steel poles is received, according to A. J. Bodien, superintendent of public works.

Signs have been assembled for intersections on Mission, San Jose, Hillside boulevard, Junipero Serra boulevard and School street, Bodien said, and will be put up as the poles are received.

State To Mail Auto Registration Cards Dec. 15th

The Department of Motor Vehicles announced today that mailing of potential registration cards for the 1949 renewal period will begin December 15.

More than two million of these documents, which will provide motorists with almost immediate service during the January 3 through February 4 renewal period, already have been prepared.

Motor Vehicles Director A. H. Henderson warned that they should be preserved carefully until time of presentation with the fee payment, which in most cases will be lower than that for 1948.

Two types of potentials, described in the Vehicle Code as a document prepared toward the close of one year for validation and use as a registration card during the ensuing year, have been prepared. One type, which is in pre-endorsement, was issued on the department's tabulating machines and is made up in duplicate. The other type was manually typed and stapled to the 1948 registration card.

Renewal procedure in both instances will be virtually the same. The applicant will present both copies of the machine-prepared potential or the potential stapled to the 1948 registration card, depending on which he receives. Both carry correct fees for 1949, making it possible for him to go directly to a cashier, pay his fees and receive in return his 1949 tabs and a validated copy of the potential.

The validated copy constitutes his 1949 registration card. No other document will be mailed to him after was the case in past years.

Mail renewals are acceptable but cannot be accomplished as rapidly as the over-the-counter type.

Mothers Club To Hear Legion Of Decency

Miss Vivian Jury of The Monitor, Catholic publication, will speak on "The Legion of Decency" at the regular meeting of the Mothers' Club of Our Lady of Perpetual Help Church scheduled for 8:15 p.m. Friday, December 10, in the school library.

A Christmas party will follow the meeting, with mothers of eighth grade pupils acting as hostesses under the direction of Mrs. Esther Nolan. Mothers of the school pupils are invited to attend. Refreshments will be provided for children, with Mrs. Anna Mae Cordell in charge. Mrs. Cordell has arranged for entertainment for the children as well as refreshments. Gifts will be exchanged.

The pollsters were wrong again on Thanksgiving morning, when a fighting Jefferson Indian football eleven out-hustled, out-guessed and out-scored a heavier and heavily favored South San Francisco high school gridiron squad here by a close 8 to 7 score.

Outweighed in every department, the Jefferson team surprised the crowd of more than 2,000 which turned out for the traditional Thanksgiving Day battle, by completely out-charging the South City line in the first quarter. After neither team was able to make much yardage in the first period, and the Indian forward wall forced the Warrior ball carriers back for loss after loss, Ken Sanguinetti got off a beautiful punt to give South City the ball on their own six yard line.

Then the Jefferson line showed its merit, by crowding the Warrior backs up against their goal line, until finally the whole left side of the Indian line broke through to smear the Warriors' Joe Abelar in his own end zone for a safety, giving Jefferson a 2 to 0 lead. Abelar was hit so hard he fumbled, and a horde of Indians fell on the ball, but a quick whistle by the referee called it a safety instead of a touchdown.

South City, stung by this reverse, took the kick-off back on a sustained drive to the Jefferson 2 yard line, where the Indians stiffened for three downs, only to see Abelar roll off right guard for a touchdown. The conversion was good and South City led, 7 to 2, at the half.

During the first half, the Indians put up a terrific defense, but their offense was unable to function. However, whatever Coach Glenn South said his squad during the half-time intermission, they must have listened closely, for, after receiving the half-time kickoff, the Jefferson line rolled like a General Sherman tank. Quarterback Reinhold Petersen, calling his plays expertly, sent Ray Settrini and little Don Lungi reeling through the line for gain after gain. In ten plays the Indians were on the Warriors' ten yard line. Then Petersen whipped a short pass to end Don Woll, who picked up two blockers and crossed the goal line unmolested. The conversion pass was incomplete, and Jefferson led, 8 to 7.

With victory in their grasp, the Jefferson team kept driving and dominated the play for the rest of the game. Abelar and Gary Riggs picked up some nice gains for the Warriors, but vicious tackling by Rico Ottonello, Lungi and Petersen stopped the scoring threat. The game ended with Jefferson driving toward another score on the South City twelve yard line, with Ottonello and Lungi carrying the ball for steady gains. The 132-pound Lungi, a midge with jet-propulsion, was a standout on the field.

Willbanks and Druhan, Indian tackles, played like demons in stopping their heavier opponents, and Curtner, Pagni, Harrison, Woll, Pagni and Bradford played their best games of the season.

Between halves, bands from both schools entertained. South City, with six drum-majorettes, and Jefferson, with five, drew applause from both sides of the field for their demonstrations.

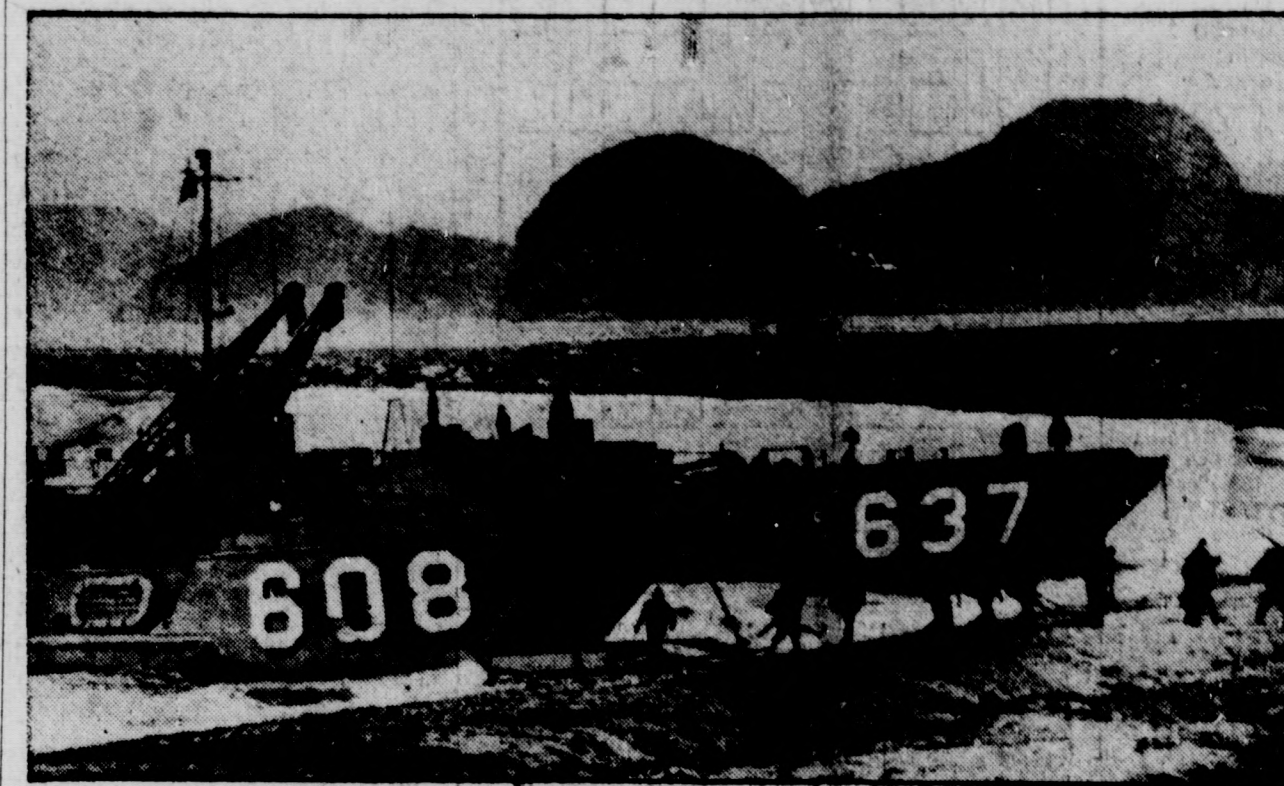

Mrs. Marjorie Reandeau Elected To Serve On Bay Area Teachers Executive Board

Mrs. Marjorie A. Reandeau, commercial teacher in the Jefferson Union High School, was honored last Saturday, November 27, by being nominated and elected to the executive board of the Bay Section Council of the California Teachers' Association. She will hold office from December 1, 1948, until August 1, 1950.

Mrs. Reandeau has been active in Teacher Association work for some years. She was treasurer of the San Mateo County Teachers' Association for two years, 1943 and 1944, president of that association for the year 1947, and a member of its executive board for the past year. She has also been a member of the Bay Section Council for the past two years and active on the retirement and professional relations committees. She attended the Asilomar conference held in Asilomar on October 22, 23, and 24 together with two local teachers from Jefferson Union High School, Miss Louise Bacciocco and Miss Berna Sutton.

Mrs. Reandeau has also been an active member in the local high school teachers' association serving as its treasurer for two years and also on its salary committee until her resignation last spring. She is treasurer of the Daly City - Colma Girl Scouts and the Central Committee of Girl Scouts for the north end of the county. This past summer she also served as treasurer of the Federated Girl Scout Camp. Her many friends join in wishing Mrs. Reandeau much success in her new position on the Bay Section Council Executive Board. In the history of the organization

OLPH SCHOOL SET FOR BAZAAR SUN.

Red and green festoons, silver bells, and holly berries have transformed the auditorium of Our Lady of Perpetual Help school into a Christmas wonderland. The decorations are for the bazaar being sponsored by the Mothers' Club Sunday, December 5, and have been put up by Mrs. Violeta Ennis, president of the club and general chairman of the event, and a group of assistants.

The bazaar will open immediately after the 8 p.m. mass with hand-work, novelties, home-made cakes, cookies, Christmas gifts, and toys on sale. A variety of games and refreshments will be offered. Christmas carols and other seasonal music will be heard in the background throughout the day.

Almost every member of the Mothers' Club will participate in the bazaar under the leadership of the following chairmen: Mrs. Susan Schroeder, Mrs. Lee Miller, Mrs. Mary Jane Tielman, Mrs. Anna Mae Cordell, Mrs. Marie Marinkes, Mrs. Mildred Sims, Mrs. Veronica Whalen, Mrs. Esther Nolan, Mrs. Mary Calidgari, Mrs. Jean Denning, Mrs. Theresa Sullivan.

The public is invited.

Charging that "the conduct of the Corporation Commissioner in the administration of the small loan laws calls for a thorough investigation and exposition," Assemblyman Ralph C. Dills, from the 69th district in Compton, declared he will take steps on the first day of the next session of the legislature to investigate what he termed "a monstrous fraud upon the people of the State of California."

Dills made his statement in a letter to Attorney General Fred N. Howser, asking him to review legal opinions pertaining to small loan practices.

The assemblyman claimed that under the Personal Property Broker's Act, more than two hundred million dollars is loaned to approximately one hundred and fifty thousand needy borrowers at present, an average of \$750 each. He claimed that many loans were for thousands of dollars, whereas he claimed the small loans act holds the legal amount to three hundred dollars.

Dills said that radio advertising is permitted which invites persons to borrow amounts up to fifteen hundred dollars at 24 per cent interest. He pointed to a ruling of the attorney general in March, 1943, which held the legal limit on loans over three hundred dollars to ten per cent per annum.

The assemblyman said that the average borrower is kept on the books of loan companies in debt for approximately 750 dollars, for periods ranging from five to eight years.

"This," said Dills, "requires the borrower to pay fifteen dollars per month usurious interest on these average loans. Certainly such a charge is the unjust enrichment of the lender at the expense of the borrowers. The top figure, which any loan including all costs on the loans that are made in this type of loan business, is two dollars per month per customer, regardless of whether the loan is for twenty-five dollars or for fifteen hundred dollars. Hence, the fifteen-dollar-per-month oppressive exaction from the borrower nets to the lender seven hundred and fifty per cent per month profit on his marketing transaction. And, mind you, this licensed loan sharkery is not only condoned by the Corporation Commissioner, but is confirmed and defended by him."

LOCAL MAN NAMED TO GRAND JURY

Victor Baker, civil engineer of 37 West Cavour street, Daly City, was among 19 San Mateo county residents appointed to a new county grand jury by Superior Judge Aylett R. Cotton yesterday. Baker is the only Daly City member of the new jury.

The county has been without a grand jury for the past 20 months. The judge's instructions to the new panel dealt mainly with a discussion of gambling reports and the law pertaining to gambling operations. He also mentioned conduct of public officials and said the grand jury should expect one hundred per cent cooperation from the district attorney's office.

AFTERNOON WHIST

Mrs. Mary Jane Tielman will be in charge of the monthly dessert-whist of the Mothers' Club of Our Lady of Perpetual Help School, to be held at 1 p.m. December 7 in the school auditorium, 80 Wellington avenue.

Mrs. Alicia Fellman will be in charge of refreshments. Both ladies will be assisted by mothers of the fifth grade pupils.

CANNY KIDS CANNOT CASH COPPED CHECK

Three young boys, one only four and one-half years old and the others five and one-half and eight years of age, were apprehended Wednesday in an attempt to cash a check they took from a neighbor's mailbox.

The youngsters took the check and a letter from the mailbox of Joe A. Smith, 771 Brunswick street, Lewis Jennings, proprietor of a store at 101 Acton street, called the Daly City police when they tried to cash the uncashed check at his store. The case has been turned over to the juvenile authorities.

Also involved in the accident were Leroy Dezak, 749 Cornell street, Palo Alto, Harold J. Halvorson, Cotati, and Robert H. Hamblin, 270 21st avenue, San Francisco.

PETERSON BLAMES SUPERVISORS FOR "BLUNDERS" CAUSING TAX INCREASES

Claiming his office has received many complaints about the "excessive increase in county taxes," County Executive Frederick Peterson blasted the county board of supervisors in a letter to the board Tuesday, claiming they could have saved thousands of dollars had they followed his recommendations.

As examples, Peterson said he had recommended alterations in office space for the Civil Service Commission at a cost of \$350, but the supervisors partitioned off part of the supervisor's chambers instead, at a cost of \$10,000. He also claimed an expenditure of \$7,500 for a health department survey just prior to employment of a new director, was a duplication and a waste of money, and that an accounting survey at Community Hospital, costing \$5,500, should have been accomplished by the county controller's office at no expense.

Peterson said, "You and your political friends have spread throughout the county, that this office is not cooperating with you, but I believe in time the citizens of our county will realize that the shoe fits on the other foot. This office has always attempted to cooperate with you in cases of unnecessary and wasteful expenditures of public funds. Had I cooperated in these instances of tax waste, I no doubt would have been deemed a 'competent' county executive."

Peterson's term as county executive will terminate in 1950 and he will be replaced by a county manager appointed by the board of supervisors, as the result of a county-wide election held on November 2.

Pac. Tel. & Tel. Co. Makes Application For Rate Increases

Application for an increase in California telephone rates, first announced on October 27, was made today to the California Public Utilities Commission by The Pacific Telephone and Telegraph Company, according to Lyle M. Brown, division manager.

"The public is demanding more and more service," Brown stated. "Present earnings are not sufficient to attract the hundreds of millions of dollars of new capital that must be raised from the sale of stock to purchase the plant and equipment needed to meet the telephone demands of the public. In order to raise this capital, earnings must be adequate to attract the investment dollars in competition with other industries."

The rate application was made necessary by the problem of rising costs—both labor and material. Rate increases thus far obtained by Pacific Telephone amount to about 15 per cent on California intrastate operations and have proved inadequate. The new application, if granted, will increase the revenues of the company about 14 per cent.

Brown stated, "The increase in the prices of almost everything we must buy in order to render telephone service has spiraled. Inclusive of the rate increase now being applied for, the average price of telephone service will have gone up less than half the 75 per cent rise in the cost of living index."

Pacific Telephone now employs 56,000 people in California or one out of every 74 workers. Its total annual state payroll is now running at the rate of \$175,000,000.

Examples of the rate changes proposed for San Francisco are as follows:

Business Individual Message Rate, including 85 Message Units, from \$5 to \$6.
Residence Individual Flat Rate from \$4.25 to \$5.
Residence Two-Party Flat Rate from \$3.25 to \$4.
Residence Two-Party Message Rate, including 60 Message Units, from \$2.50 to \$3.
Message Unit Rate from 3½¢ to 4¢.

TEXT OF D.A.'S LETTER

The Daly City Record presents herewith the text of the letter to James L. Snell, district superintendent of the Jefferson School District, from the district attorney's office, dated November 22, 1948, pertaining to the closing of Woodrow Wilson Elementary School:

Dear Mr. Snell:

Receipt is hereby acknowledged of your letter dated November 8, 1948, wherein you set forth certain facts and ask the following questions:

1. Is the district legally liable in case of injury to pupils because of the "unsafe" building?
2. Are the Board members liable individually?
3. Is the over-all building plan considered in arriving at the liability, or must the district replace the "unsafe" school first in its building program?
4. What steps should be taken to protect both the district and the Board members if the answers to questions 1 and 2 are "yes"?

We have also received your letter of November 10, 1948, enclosing a further report on the Woodrow Wilson School made by Albert F. Roller, a registered architect.

While the report of the Division of Architecture, dated June, 1937, does not make the statement that the Woodrow Wilson School is unsafe for use, it does point out many deficiencies in the construction, reducing the safety margins to below normal allowances; that there is a pronounced fire hazard and that the building would not resist a major earthquake.

The district attorney's letter, signed by Louis B. Demattels, assistant district attorney for San Mateo county, advised the board to take immediate action to either make the school safe or to replace it.

The 30-year-old structure has long been a bone of contention, and in the past two years has become something of a political football. One group has demanded that it be torn down immediately and a new school constructed in its place.

The board of trustees had planned to add four new rooms to Woodrow Wilson Primary, and build a new school at Market street and Hillside boulevard and one in Garden Village. Plans called for using the old school until the new building was completed; then tearing down the old building to provide more area for Woodrow Wilson Primary school.

The board has \$348,000, voted in a bond issue more than a year ago, plus \$480,000 appropriated by the State of California, for new school construction. The board has acquired a six-and-one-half-acre site in Garden Village, one in Westlake and another at Hillside boulevard and Market streets for badly-needed expansion of school facilities.

The board of trustees scheduled a special meeting tonight, Thursday, December 2, in the district administration building at 344 Santa Barbara avenue.

(Continued on page 2 col. 7)

For any injury or loss incurred by any person because of the defective or unsafe condition of the school building referred to.

Referring to your second question, while there are some statutes specifically exempting board members from personal liability in some circumstances, there appears to be a general liability imposed upon them for their own negligence in connection with school affairs. We therefore feel that under the circumstances of the present case, and in view of the long period of time that has elapsed since the condition of this school was called to the Board's attention, that there is a definite probability that the trustees would be held personally liable.

Section 1007 of the Education Code and Act 5619, Deering's General Laws, provide that the governing board of any school district is liable for any judgment against the district on account of injury to person or property arising because of the negligence of the district or its officers or employees. The question of what constitutes negligence on the part of a school district or school trustee is a complex one which depends upon the facts of each case.

In answer to your first question, it is our opinion, under the facts presented to us in your letters, and in the light of the matters hereinbefore discussed, that the school district definitely would be liable.

German Children Get American Lesson

BREMEN—In schools near here teachers are devoting a history lesson to the Christian Rural Overseas program (CROP), through which German children, widows, the aged, and other needy are receiving food given by farmers in America.

In this photograph the teacher has drawn a picture of a boat which is carrying CROP food from America.

The food which is arriving here will ward off hunger and disease and give many the strength to study, work, and play.

CROP is sponsored in America by Catholic Rural Life, Church World Service, and Lutheran World Relief. Food is distributed here in Germany through church channels, solely on the basis of need.

The scarcity of employment was further realized this week as hundreds of applicants for post office jobs were turned down.

Usually a reliable source for Christmas vacation work, the post office issued quotas to each bay area college with veterans getting top priorities. Only those veterans who signed up more than a month ago were accepted. Meanwhile the rest of the multitude will sit back during the two-week period and wonder how to buy those all-important Christmas presents.

Balboa Alumni AC

Balboa Alumni Athletic Club is the largest club in the college. Its main aim is to promote sports at City College and elsewhere. Members Harvey Roscelli and Stan Jorles head the intramural program. Membership is not restricted to Balboa graduates only, as evidenced by the presence of athletes from Sacred Heart, Comstock, Jefferson, Albany, McClymonds, Napa, Lowell, Mission, St. Ignace, Lincoln, and Polytechnic. Last year these boys captured the baseball and football championships. Thus far this year they took a second in basketball, bowing to City College's future varsity team.

Officers are Frank Galo, president; Rudy Pfister, vice president; Dave Ramos, secretary; Maurice Kerner, treasurer; Don Mallen and Bob Clark, sergeant-at-arms, and Roy Hurlbert, athletic director and press agent.

Activities are not restricted to the college as outside games have been scheduled. For further enjoyment, dances are conducted. As Press Agent Roy Hurlbert puts it, "Someday it may rival SFAC and the Olympic Club. Next year we are entering the PA tourney at Kezar."

Football

The Rams, champions of the "A" division, meet Menlo JC, "B" division winners, at Kezar tomorrow for the NCJCC championship.

Past games point to a victory for the locals. City College defeated Hartnell JC, 20-7, while Menlo received its only defeat at the hands of the Hartnell boys. Also, while the Rams trounced San Mateo JC, 26-0, in a traditional game, the Menlo Oaks had to come from behind to narrowly beat the Mateans, 7-6.

Coach Grover Klemmer will use the same line-up he has used all year, with Roy Poznekoff and Don Stillwell at ends, Paul Oliver and Neil Gunn at tackles, Ben Albrecht and Daly City's Don Mottetini at guards, Burl Toller at center, All-Conference Bob Toquinto at quarterback, Ken Foehr and All-Conference Ollie Matson at halves, and Roy Georgi at fullback.

Last week Matson scored three touchdowns including one that broke a 19-19 tie to defeat Modesto JC, 25-19. The supposedly weak Modesto eleven threw a scare into the Ram machine. In fact, the outcome was always in doubt until Matson scored the winning points in the last quarter. It was the Rams tenth consecutive win without a setback.

Next week they trek to Vallejo to meet Chaffey JC in the first annual Gold Dust Bowl. Dis an' Dat

Nine pretty girls and seven handsome boys were in the running for Sophomore King and Queen. Elections will be held today.

Rudy Pfister and Bob Clark captured the college horse shoe championship by besting the Hal Flinn-Rudy Bertolozzi duo. Gold-plated belt buckles go to the champs, while the losers will receive bronze second place medals.

Next week City College students will have to go through that ordeal again—second midterms take over the spotlight.

Colma Boys Club In
4-3 Baseball Win

The San Pablo Merchants piled up twelve hits against eight for the Colma Boys Club Sunday at Marchbank Park, but the Colma team bunched theirs where they counted most and came out on top by a 4 to 3 margin.

Wohl, Heffron and Parodi each accounted for two bingles for the locals, to take batting honors. Center-fielder Aquair, with three hits in four attempts, led San Pablo at the plate.

Fred Fazio handled the mound assignment for Colma and won credit for the victory.

liable as they are informed of the facts and have the means of remedying the situation. In our opinion, a court might well conclude that the members of the Board would be individually liable.

Again, in view of the facts of this case, it is not likely that the over-all building plan which you outline would have much effect in determining the liability of the district and members of the Board. The failure of the school board immediately to take some action to either remodel, reconstruct, or replace the school would be a fact that would react against the Board in considering whether or not they were negligent.

In answer to your fourth question, we wish to state that the steps that should be taken to protect the district and the Board members in this matter is not solely a legal one but rather one of policy for the Board to determine in the light of the foregoing facts and opinions. It is for the Board to determine whether the school building should be remodeled, reconstructed or replaced by another structure. From a legal standpoint, however, we feel that it is imperative, in order to avoid the liability discussed herein, that the Board take some immediate action to either make the school safe or to replace it. This should be done as quickly as possible and should be the first order of business for the Board to consider. The longer the delay in eliminating this hazard the greater the danger of liability becomes.

We trust that this will answer the questions which you propose. However, if you desire, we will be glad to discuss the matter further.

Very truly yours,

GILBERT D. FERRELL,

District Attorney

Newlyweds Return
To New Home

Mr. and Mrs. William Fischer are
now at their home, 308 8th avenue,
San Francisco, after a honeymoon
at Lake Tahoe and in Nevada.
The couple was married Novem-
ber 20 at a 4 o'clock wedding cere-
mony in the 7th Avenue Presby-
terian church, with Reverend Carl
Subke officiating. The new Mrs.
Fischer is the daughter of Mr. and
Mrs. Henry Schuiken of 1328 38th
avenue. Her husband is the son of
Mrs. Nellie Murchison, 68 Hanover
street, Daly City.

The bride wore a white satin
gown with a long waistline and a
long full train. Her veil was finger-
tip length. She carried a bouquet of
bougardia and an orchid.
Matron of honor for her sister
was Mrs. Stanley Eager, with an-
other sister, Gloria Schuiken, as
flower girl. Both wore gowns of
deep green. Dressed alike in gowns
of pale green were bridesmaids
Miss Marie Simmons and Miss Bar-
bara Habeb. The attendants car-
ried bouquets of roses.

Best man duties were performed
for Mr. Fischer by Mr. Don Welsh.
Teddy Prescott and the groom's
brother, Bob Murchison, were the
ushers.

A reception was held following
the ceremony in the banquet room
adjoining the church. The groom is
a graduate of Jefferson high school
and formerly attended San Mateo
Junior College. His bride is a gra-
duate of Polytechnic high school.

signals, cutting in, driving with no
lights, driving on the double line,
and driving in a safety zone.

Exceeding the speed limit and
paying a \$5 fine were Fred Hider,
Robert Howard, Mario Castelli, Se-
quardier Christophersen, Ralph
Cooper, Silvia Cornish, Robert Fer-
guson, Thomas Galvin, Felipe San-
tos, Claudia Shortell, Richard

ing \$6 were Frances Hiltman and
William Lenhoff. Those paying
\$7.50 were Salvador Piazza, An-
drew Poon, Roberto Ramirez, Ed-
ward Buck, Byron Graham, Louis
Gregorin, Richard Rossi, and Nay
Won. Bruno Cases paid \$2.50, and
Benjamin Battestini paid \$15.

Parking violators who paid \$2.50
were Charles Hook, Index Invest-
ment Corporation, David Miller,
Grace Oswald, Charles Blunt,
George Doffin, Walter Todd, and
Frank Sachner. Those who paid
\$1.50 were Louis Johnston, Joseph
Marsilli, Peter Alaise, and Robert
Lovejoy. A. H. Heckett paid \$1.

Going through signals were John
Hill and Loren Phelps, who each
paid \$2. Louis Bizjak, William
Brown, Fidel Francisco, Douglas
Henkel paid \$2.50, while Apolonia

SLOW DOWN

Motorists should never cut back
sharply to the main road surface
after running off the road shoulder,
advises the National Automobile
Club. It is the instinctive thing to
do but the wheel striking the road
edge at a good speed is apt to twist
the steering wheel out of the driv-
er's hands. The wise motorist will
pull back on the surface only after
he has slowed down to be safe.

PEDESTRIANS' RIGHTS

On one question of "rights" as
between drivers and pedestrians
the car owner is apparently too
often in the wrong, reports the
National Automobile Club. That
seems to apply in the case of the
green light giving the car owner an
unqualified "go" signal. Courts
have held that his right to move on
the signal is not unqualified, that
pedestrians in the intersection
must be allowed to clear before
motorists waiting for the signal
may move. It is a "right" of the
pedestrian as the court sees it.

Why present low telephone rates must be increased

We're forced to apply for increases because we, too, are
up against the problem of rising costs
Here's the story:

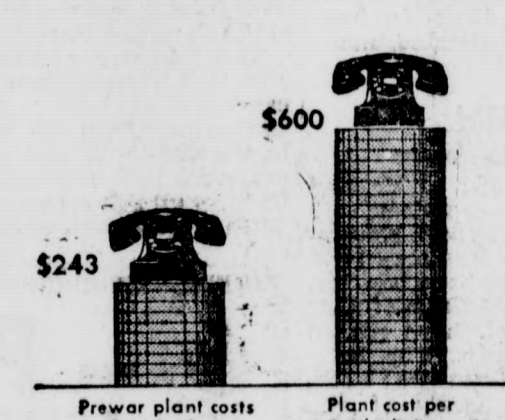

Telephone rates have gone up
much less than most
other things

Most businesses throughout the
land have had to raise their prices
a great deal... as the examples on
the chart show.

But telephone rates, which were
not generally increased between the
1920's and 1947, have gone up little
even in these postwar years. The
average in California is 15%.

The amounts we are now asking
will vary for different services...but
will average about 14%.

Compared to the prices of other
things you buy, telephone service will
still be one of your greatest bargains.

For every telephone put in this
year we have spent
\$600

We're breaking records putting in new
telephones in the face of high costs. The
equipment needed to serve the average
telephone in California before the war
cost us \$243. But costs have shot up. To-
day we are adding equipment costing
about \$600 for each new telephone.

To bring more and better service to
California, Pacific Telephone has had to
invest \$280,000,000 in new facilities since
V-J Day. This is one of the largest construc-
tion programs of any business in the state.

And we should put millions more to work
in California to meet your growing needs.

To attract more working dol-
lars we must have
reasonable rates

Where does the money come from...
the money we invest in California?
We have to compete with other busi-
nesses for it. It cannot come out of
the rates you pay for service. It must
come from the savings of men and
women all over the country. They
want, of course, safety and a reason-
able return on their investment. Or
they won't invest.

Actual experience has shown that
what we are earning in 1948 is not
enough to attract the kind of invest-
ment money we need.

Pacific Telephone does not ask that it be allowed to earn one penny
more than is required to do the job. But we must earn
enough to do a good job for California.

Daly City Residents
Celebrate 42 Years
Of Married Life

Celebrating their 42nd wedding anniversary Thanksgiving were Mr. and Mrs. Sydney Bryant of 539 San Diego Avenue. The Bryants were married on December 6, 1904, in Canada and have lived in Daly City for the past 26 years.

Among their guests helping them celebrate were Mr. and Mrs. William Mace and three children, Miss Gertrude Squires, Mr. Wilbur Wheeler, and Mrs. Ethel Bryant.

High-Tone Siren Will
Kill Mice, Light Pipe

A siren that brews coffee, lights a pipe, pops popcorn, kills roaches and mice is the latest in ultrasonic gadgets. It will also wash your clothes 60 times faster and somewhat cleaner than a washing machine, homogenize your milk, and precipitate smog.

Dr. Isadore Rudnick, graduate of the University of California at Los Angeles and now associate professor in the U. C. L. A. physics department, has been instrumental in the development of this high-frequency "super-whistle."

Many of its chores are dependent on the conversion of sonic energy to heat energy. For instance, tobacco in a pipe absorbs the sound energy when exposed to the siren sound field. The sonic energy is then converted to heat energy, and the tobacco ignites.

A mouse's body temperature is raised so high in one minute's exposure to sonic energy that it dies. The ultrasonic siren may not replace DDT, the Silex, the Ronson, or the Bendix in the near future, but Dr. Rudnick is confident that it will become a "jack-of-all-chores" in future years.

SALMON IN TOMALES BAY

Large numbers of salmon are now in Tomales Bay in Marin county.

Rod And Gun Club Meets
Next Wednesday Night

Fishermen of the D. C. Rod and Gun Club have reported few bass of any size being taken in bay waters recently. A few large stripers are running at Rio Vista and China Camp, as always, turns up a few small ones each day.

Twelve of the local nimrods spent a week end at Hal Hansen's cabin at Rio Vista before Thanksgiving, but, after sleeping on the floor all night, the gang decided to fish instead of hunt pheasants.

Ed Nienstiel snagged a blind four-pound bass, while Argie Gardner hooked a 16-pound fish. Hal Hansen got a hole in his boat, so he and Harry Johnson and Louis Reed spent the day on a mud-bank.

The Rod and Gun Club meets again on December 8 to elect officers and greet new members, with the annual installation dinner scheduled for the second Wednesday in January.

Club headquarters are at the

COUNTY RENT BOARD
PRAISED BY DIRECTOR

The San Mateo County Rent Advisory Board which has been in operation approximately one year has performed an excellent service for the county of San Mateo, according to Henry A. Cross, San Francisco Bay Area rent director. "The Board has been very active and has assumed its responsibilities in splendid fashion."

Since the beginning of operation, the board has held 42 meetings. The meetings are held weekly on Monday mornings from 9 - 11 a.m.

During the meetings the board has discussed rent control problems with 482 landlords and tenants. The problems deal with adjustments, complaints, leases, evictions, overcharges, registrations, and other matters having to do with rent control. A careful record is made of each case, and action is taken by the Area Rent office on the recommendation of the board.

In addition to individual conferences with landlords and tenants, the board has held three open meetings with an average attendance of 85. These meetings were held for the discussion of rent control problems and for the purpose of giving both landlords and tenants an opportunity to discuss their views with the idea of assisting the board in its operation.

New Buicks Go On
Display At Belli

The first public showing of the new 1949 Buick was held in the showrooms of Belli Motor Co., local Buick dealer, last Friday.

Distinctive styling of the new Buick models are highlighted by flowing, full-length fenders, a lower, wider grille, full-vision curved windshield and rear window and functional, chrome-ringed "venti-ports" on front fenders.

John Soldavini of Belli Motor Co., at 7400 Mission street, announced that more than 100 mechanical improvements are incorporated in the 1949 Buick Super and Roadmaster models.

"In addition to being re-styled from bumper to bumper," he said, "these cars have been designed to include the newest engineering advances to provide even greater riding comfort, easier handling, extra safety features and a more outstanding performance."

LOMITA ELECTION

Lomita Park voters will go to the polls on January 4, in a special election to determine whether that unincorporated area shall be annexed to the new city of Millbrae.

In 1946, Lomita Park rejected a like proposition to be annexed to San Bruno.

SAGGED SPRINGS

Constant flexing over rough roads or overloading the car will cause springs to sag and flatten out, warns the California State Automobile Association. Sagged springs lose resiliency and usually cause a thumping noise due to the chassis striking the axle housing when the car passes over rough roadway.

ERRATIC BRAKING

Brakes that do not bring the car to a smooth straight stop from any speed should be classed as erratic, advises the California State Automobile Association. Any tendency for the car to swerve when the brakes are applied indicates an unbalanced condition which should be corrected without delay.

SALMON RUN ON

A large run of king salmon has just moved into the tributaries of the Eel River in the Mendocino county area, according to the National Automobile Club.

MORE ELECTRIC POWER FOR CALIFORNIA

The new 21,000-horsepower West Point generating plant on the Mokelumne River, 19 miles from Jackson, went to service this week. It is the third new Pacific Gas and Electric Company powerhouse completed this year. Additional generating capacity installed since V-J Day now totals 255,000 horsepower. Another great power plant, on Antlers Point, San Francisco, will be completed in February. It will add 298,000 horsepower to the available supply of electricity. By year's end, P. G. and E.'s postwar investment in new power facilities will exceed \$300,000,000. The utility company is now spending at the rate of \$400,000 every day for construction. More than 7,000 men are speedily working on other big projects which will add 1 1/2 million more new horsepower to the system capacity by the end of 1951.

atient Has A Nerve, hat's Why Dentists Navy Are Painless

you wish to be free from the ache, eat a whole mouse once a day.

his sage advice was given in a D. to a swollen-jawed sufferer.

the 16th century the howling patient was securely strapped to a chair and his aching knopper poked out with a mallet and rod.

at NAS, Alameda, California, dental department, a chief petty officer watched with casual interest while a portion of his jaw was whittled down and four front teeth, listing outward at a 60 degree angle, were extracted—a completely painless, discomfiting or nervousness.

the chief felt no pain during the operation because of careful injections of novocaine and "two little pills that sent me flying higher than a kite."

is many milestones away from 1310 A.D., when a remedy for dental pains consisted of: "The gall of a cow, wormwood, alum, pepper, mace, cloves, pitch, mustard, heart of magpie, fat of mice, dung, plantain and lice."

the dental clinic at NAS Alameda is one of the Navy's most completely equipped and has every convenience with which to serve. Two of the dentists on duty are former prisoners of war.

Three years after the fall of Bataan, they practiced emergency dentistry on fellow POWs in routine laboring work in these fields.

illings were made by shaving the patient's head, heating the bichloride of mercury (the teeth were secretly stashed away in a capsule) in aluminum mess tins.

The mercury freed itself from the tins and when mixed with the silver shavings, resulted in a solid filling material.

"I saw a Navy chief, whose molar I had filled in prison camp, aboard NAS Alameda just a few weeks ago," one of the dentists said. "He showed me the filling. It was still in there, solid."

Last year dentists at NAS Alameda extracted 1,800 teeth, filled 8,190, made 4,500 X-rays and 2,000 men's teeth. About 300 dentures, bridges and other forms of artificial teeth were made in the department's prosthetic laboratory.

All without one yelp of pain from a patient.

Dentistry has come a long way from the year 300 A.D., when St. Apollonia (patron saint of dentistry) was tortured by having her teeth extracted, one by one, without even a clove to chew on.

George L. "Dad" Howe, 94, died into Los Angeles three months and two days after leaving Thomason, Ga. "Dad" left me with \$5, wound up with 76 cents, after traveling 1300 miles. His bride, Willie Edith, planned to come and make it a honeymoon trip, but had to remain at home. For the trip, "Dad" thinks he'll install a motor.

FILLERS FROM THE CLASSICS
Lucky men can seldom correct their faults; they credit their wisdom when it is fortune which has justified their vice or folly. — La Rochefoucauld, Maxims.

It is less dangerous to do harm to men, than to give them too much help. — La Rochefoucauld, Maxims.

In many men loyalty is a device of self-interest; a means of exalting themselves, and of becoming the depositories of valuable trusts. — La Rochefoucauld, Maxims.

True eloquence consists in saying all that should be, not all that could be, said. — La Rochefoucauld, Maxims.

A narrow mind begets obstinacy; it is hard to be persuaded of something one is sure of. — La Rochefoucauld, Maxims.

KEEP VALUABLES OUT OF SIGHT IN YOUR CAR

Don't leave valuables — coats, cameras, luggage and especially packages — in sight in your locked car, warns the California State Automobile Association. It is an invitation to thievery especially at this season when Christmas packages in automobiles increase the temptation. Thieves are active in this season, counting on valuable packages and general carelessness in the Yuletide shopping rush.

Breaking into a modern automobile is a simple matter for a thief. He simply smashes the glass in the small ventilating window, reaches in and opens the door.

Unless a would-be thief sees something of value inside an automobile, he is not likely to attempt to break into it.

Keep luggage and personal belongings locked in the trunk compartment or out of sight in your car where they will not tempt a thief.

Bob Stueve Serving On USS Boxer in Maneuvers

Robert L. Stueve, fireman apprentice, USN, son of Mrs. C. Stueve of 239 Crocker avenue, is serving aboard the aircraft carrier USS Boxer, which has participated in the Pacific Fleet exercises held off the West Coast.

The three-week operation included units of the Sixth Army and of the Fourth Air Force. A main objective of the exercises was to demonstrate what personnel in the Fleet could do with equipment and procedures available and to coordinate the three armed services in a defensive, aggressive team.

State Farm-Home, Educational Aid For Vets Stated

Veterans in San Mateo county who entered military service from California may be eligible for both educational assistance and farm-home financing benefits provided by the State, according to Floyd D. Granger, veterans service officer.

From time to time, Granger said, inquiries by veterans reveal a widespread misconception in this regard. Many veterans have hesitated to apply for educational aid in the mistaken belief that by so doing they would lose out on eligibility for the Farm and Home Purchase Plan, Granger reported. This was true prior to 1946. But action by the State Legislature in that year repealed a section of the Military and Veterans Code containing the restriction and made both types of benefits available to all eligible veterans.

The Farm and Home Purchase plan provides for financing of Veterans' property at low interest, currently 3 per cent, up to a maximum of \$7,500 on a home and \$13,500 on a farm.

Educational assistance provides for State payment of tuition fees and for books and supplies, plus an allotment of \$40 per month, up to a maximum of \$1,000 expenditure for any one veteran.

Full information on both benefits is available at the Veterans Service Office, in the Courthouse, Redwood City, phone EMerson 6-5711.

BEAR HUNTING GOOD
Bear hunting in the Pino Grand and Pilot Creek areas of El Dorado county has been excellent during the past week, reports the National Automobile Club. Hunters using good dogs had the best luck.

SURVEY SHOWS ADS IN WEEKLIES ARE READ MORE THAN IN DAILIES

The readership of an advertisement in a weekly newspaper is about seven times that of the readership of a similar advertisement in a daily paper. This is the conclusion of a survey made by seven different researchers and compared with averages compiled for 72 dailies by the Advertising Research Foundation.

Higher readership in weekly newspapers was accounted for by the following factors: The average weekly paper is eight to twelve pages, and is there-

fore read more thoroughly. Readers spend considerably more time with a weekly newspaper, since most people keep the weekly in the home for five or six days and refer to it several times during the week.

The average weekly is read leisurely in the home instead of "on the run." Figures show that each copy of a weekly paper is
